Objective

To apply my technical skills and innovative mindset in challenging competitions like hackathons, contributing to impactful solutions while fostering continuous growth and collaboration.

Experience

Smart India Hackathon 2024

Drop Squad (Winner) - August 2024 - December 2024

- Developed an AI-powered water footprint calculator for daily products, empowering consumers to make informed choices and promote sustainable consumption.
- Created a "Farmer's Corner" feature leveraging the AquaCrop simulation model, providing farmers with data-driven insights for optimized irrigation and enhanced canopy development.

Technova Club

Technical Member - October 2024 - Present

- Organized technical events, workshops, and seminars, fostering collaboration within the team.
- Contributed to innovative technical projects and solutions.
- Participated in knowledge sharing and skill-building activities to enhance the team's expertise.
- Mentored junior members to cultivate a collaborative and supportive environment.

CODETECH IT SOLUTIONS PVT.LTD

Frontend Web Developer - December 2024 - Present

- Developed web applications utilizing local storage and real-time communication technologies (Node.js, Socket.io).
- Demonstrated expertise in frontend development concepts and best practices.
- Gained practical experience in building interactive web features that enhance user experience.

Skills & abilities

Programming Languages: Java, JavaScript (React.js), C

Web Development: React, Node.js, Express.js

Databases: SQL, MongoDB

Networking: Socket.io

Version Control Systems: Git

AI/Machine Learning: GPT, Gemini, AI Concepts, Machine Learning Fundamentals

Prompt Engineering: Chat-GPT, Bing (Copilot) Certification

Soft Skills:

Teamwork

Communication

Problem-solving

Time Management

Learning Agility

UI/UX Design

Projects

Droplet: AI-powered Web Application for Water Footprint Calculation

- Developed an AI-powered web application to calculate the water footprint of agricultural products.
- Enabled farmers to compare their canopy health, irrigation schemes, and receive personalized recommendations for water management.

Varta: Chat Application for Individual and Group Texting

- A real-time chat application using MERN Stack and Socket.io to facilitate communication between individuals.

Digital Pharma Assist: Java Application for Pharmacy Inventory Management

- Designed and implemented a Java application for a pharmacy inventory management system.
- Optimized inventory levels, ensured regulatory compliance, and improved patient care through efficient inventory management.

Key Achievement

- **Smart India Hackathon 2024 – Winner:** Developed an AI-powered water footprint calculator and features like "Farmer's Corner," empowering farmers and consumers with data-driven insights for sustainable practices.
- **Technovate for India Ideathon 2025 – 2nd Runner-Up:** Secured 2nd Runner-Up among 150+ teams during the *Technovate for India* conclave organized by *The Times of India* and *Talrop* at Hyatt, Pune. Designed an innovative tech-based solution addressing critical agricultural challenges for Maharashtra's farmers. This achievement was featured in *The Times of India*.
- **Academic Excellence:** Maintained a CGPA of **9+** in B.E. Computer Engineering (as of the 4th semester).

Education

Shivajirao S. Jondhale College of Engineering

- B.E Computer Engineering (Expected 2026)
- Current CGPA: 9+ (as of IV Semester/Second Year)

Sheth N.K.T.T College Of Commerce And Sheth J.T.T College Of Science And Arts

- HSC (2021-2022)

Holy Trinity English High School

- SSC (2019-2020)
